

## ATTEMPT TO FORCE VOTE BEFORE RECESS

### DEMOCRATS HOLD SENATE IN SES- SION PAST MIDNIGHT

Continuous Session May Last Two or Three Days—Majority Succeeds in Putting Ship Purchase Bill Squarely Before Senate.

Washington, Jan. 29.—Determined to crush Republican opposition and end the long fight over the government ship purchase bill, the Democrats held the senate in session past midnight with the avowed purpose of forcing a final vote before recess or adjournment. How long the minority would be able to hold off the vote no one would predict, but even the most optimistic Democrats admitted that the continuous session might last until tomorrow night. Others thought it more likely to continue two or three days.

Senator Smoot was speaking at midnight and had intimated that he would hold the floor as long as his strength would permit.

The Democrats by a series of parliamentary maneuvers, had succeeded over vigorous Republican opposition in putting the ship bill squarely before the senate on a motion of Senator Fletcher to put the Democratic caucus substitute for the original bill upon its passage.

There was an immediate demand for the call of absentees and Senator Smoot began speaking while deputy sergeant-at-arms were scouring the city for members.

The maneuvering of the evening left the bill at midnight in such a position that a vote upon the substitute might come at any moment. If the opposition faltered and Senators Lodge and Smith of Michigan appeared at a late hour laden with many papers and apparently ready to relieve Senator Smoot and continue the battle of words throughout the night if necessary.

Representative Hobson of Alabama declared in a final appeal to the house for a larger navy that President Wilson and Secretary Bryan were the greatest obstacles to national defense and said it seemed singular that the movement for prohibition likewise found its greatest opposition from this administration.

"If national prohibition and national defense are the greatest questions in America, as I believe them to be," he said, "then the president of the United States instead of being the country's asset is the country's greatest liability."

He said it was his firm conviction that the United States has secured peace with Japan only by giving assurances of speedy retirement from the Philippines. Moreover, in a part of his speech which went into the record without actually being delivered on the floor, the Alabama representative said he believed that when the American fleet went around the world during the Roosevelt administration it was allowed to go to Japan only with the assurance that it would be out of the Pacific Ocean by a fixed time.

At 3:30 a. m. the senate was still in session.

## TO DISCUSS ADVISABILITY OF DISSOLVING INJUNCTION

AURORA, Ill., Jan. 29.—Differences of opinion regarding the desirability of an injunction forbidding the slaughter of cattle because of the injunction, to call a meeting of Kane county farmers for Geneva, Illinois, Monday afternoon to discuss the advisability of dissolving the order. A number of dairymen have petitioned the judge to rescind his order, declaring it had caused much financial suffering among the producers.

Judge Irwin has explained that his order does not restrain the slaughter of stock, if it is legally done.

## FAVOR FULL COMPENSATION TO OWNERS OF SLAUGHTERED STOCK

SPRINGFIELD, Ill., Jan. 29.—The Illinois Livestock Breeders' association adjourned its annual session today after electing officers, adopting resolutions favoring full compensation to owners for animals slaughtered because of the foot and mouth disease and naming a committee to attend the session of the legislature and urge the passage of such legislation.

The officers elected are: president, Charles Adams, Belmont; vice-president, J. V. Caldwell, Williams; secretary, Dr. A. T. Peters, Peoria.

## SHERMAN TO ADDRESS LINCOLN BANQUET

Springfield, Ill., Jan. 29.—Senator Lawrence V. Sherman will deliver the principal address at the annual banquet here February 12th, of the Lincoln Centennial association, plans for which were announced today. Other speakers will be Archbishop John P. Glennon of St. Louis, Guston Borglum of New York and Bishop Samuel Fallows of Chicago. Members of the legislature and state officers will be guests at the dinner.

Miss Alice Wadsworth has gone to St. Louis for a few days' visit at the home of her aunt, Mrs. E. A. Nixon.

## GILMORE STATES DEAL HAS SIGNED A TWO YEAR FEDERAL CONTRACT

Brave Third Baseman to Play With St. Louis—Gilmore to Attend Meeting in New Haven, Conn., Today.

New York, Jan. 29.—President J. A. Gilmore of the Federal League arrived here from Chicago today and held a long conference with R. B. Ward, president of the Brooklyn Federal club. Later on he met Charles Deal, third baseman of the Boston world's champions, at an uptown hotel and announced that Deal had signed a two year contract to play with the St. Louis Federal.

Gilmore stated that his trip was principally for the purpose of attending a meeting of baseball club owners and other interested parties in New England which will be held at New Haven tomorrow for the purpose of establishing a federal minor league.

"There seems to be a demand for such an organization in New England," he said, "and in fact there are parties in the south and west who believe similar organizations could be established there to good advantage. I am not prepared to mention any cities just now, but there are at least fifteen who wish to be represented in a minor Federal league in New England and I expect at tomorrow's meeting some definite plan of organization will be arranged."

President Gilmore explained that the Federal league was not going to finance the new association but he said the Federal league clubs which released players to the minor body would pay the difference between the salaries paid by the minor clubs and the amount called for in the contracts of these players with the Federal league so that the player would not suffer financial loss.

## DEVORE IS GIVEN RELEASE

Boston, Jan. 29.—"Josh" Devore, termed the "luckiest man in baseball" because of his connection with the New York Giants and later with the Boston Braves when each team participated in world's championships, was given an unconditional release by the Boston Nationals today. A desire to allow him to sell his services in the best market is given as the reason for his release. Devore has played also with the Cincinnati and Philadelphia teams of the National league. The Boston club received word today that Walter Traggesser, a catcher who was with the Birmingham, Southern league team last year, had signed a contract with the Braves.

## C. P. OFFICIALS DENY RUMOR THAT "Q" BUYS HAVANA LINE

SPRINGFIELD, Ill., Jan. 29.—Local officials of the Chicago, Peoria & St. Louis railroad today denied that the Havana-Jacksonville branch of that road had been taken over by the Chicago, Burlington & Quincy. The presence of Burlington officials in Havana recently is said to have led to rumors that the Burlington would acquire this branch as a southern extension to its Galesburg-West Havana line.

## CONDEMN METHODS USED IN COMBATING CATTLE DISEASE

DECATUR, Ill., Jan. 29.—Members of the Illinois Veterinary Medical and Surgical association, in session here today, condemned the methods used by both state and federal authorities in stamping out the hoof and mouth disease. Criticism centered on lax quarantines and length of time between condemnation and slaughter of herds.

President, Dr. P. C. Ballou, Piper City; first vice-president, Dr. W. H. Smith, Findlay; second vice-president, Dr. George D. Crewes, Minier; secretary, Dr. L. G. Rittenhouse, Farmer City.

The next meeting will be held in Decatur in August.

## GEORGIA FARMERS FACE PROBLEM

Albany, Ga., Jan. 29.—A heart-to-heart discussion of the problem how to adjust their crops for the coming season, so that 50,000 farm hands will be kept at work and not thrown into the mass of unemployed, began here today, when merchants and farmers of southwest Georgia gathered to thresh out the new situation. The replacing of much of the cotton acreage with food crops brings with it the problem of marketing the new crops. The planters are planning to shoulder the experiment, rather than allow some 1,800,000 acres to lay fallow this year. But the care of the new crops, harvesting, and the marketing have brought many new problems. The Georgia Chamber of Commerce is with the planters, and will co-operate in the marketing, aiding in the securing of facilities for packing and shipping in accordance with trade customs.

## SUTTON DEFEATS YAMADA

Manville, Ill., Jan. 29.—Sutton defeated Yamada, 300 to 239 in a Billiard Players' league contest tonight.

Sutton's high run was 114; Yamada's 60.

Sutton's average was 23 1-13; Yamada 19.12.

## SEND GENERAL PAU TO RUSSIA

Berlin, by wireless to Sayville, L. I., Jan. 29.—The Overseas News Agency today received reports from Geneva, Switzerland, to the effect that General Pau, the noted French army commander, had been sent to Russia to take over the command of one of the Russian armies in Poland.

## PREDICT CHANGE IN SITUATION NEXT WEEK

### PROVINE AND HANER EXPECT EN- TIRELY NEW FRONT ON SPEAKERSHIP

Presence of Illinois Anti-Saloon League Superintendent is Expected to Loosen up the Situation Materially—McCormick May Land in the Speaker's Chair.

Springfield, Ill., Jan. 29.—An entirely new front on the legislature situation is expected when the assemblymen return to Springfield next week. Following the breaking early this morning of negotiations between the sixty-three caucus Republicans and the seventeen anti-caucus Republicans Walter M. Provine, the Republican caucus nominee and his manager Phil Haner of Taylorville left for Chicago. Before departing they predicted that next week would bring about a decided change.

Scott McBride, state superintendent of the Illinois anti-saloon league, is expected to return from Denver by the time the house reconvenes next Wednesday and his presence is expected to loosen up the situation materially.

In his absence a number of the law makers who are subservient to the wishes of his organization are not free to act. When he is here to advise, quick action may be had whenever opportunity for any sort of political coop offers itself. Should the McBride organization attack its "O. K." to the Medill McCormick boom the erstwhile Bull Moose may be landed in the speaker's chair. This was the prediction confidently made today by some of the house "drys."

With Provine admittedly unable to make any inroads upon the strength of his opponents, both outside and inside the Republican caucus contingent, his supporters are weakening and apparently are casting about for a candidate acceptable to the "wets" and who may also be depended upon to treat them fairly, not only in the matter of putting their bills on roll call but likewise in distributing committee plums. It is believed by the "drys" who are engaged in preliminary skirmishes preparatory to putting their strength behind McCormick, that he will be acceptable to the "wets." Heretofore whenever one side has expressed satisfaction with a proposed candidate, the other side promptly vetoed the suggestion. By proposing McCormick's name the "drys" who are boosting him expect to gain the precedence and whatever other advantage may accrue from naming the candidate.

## PRIZES ARE AWARDED AT DECATUR EXHIBIT OF STATE CORN GROWERS

DECATUR, Ill., Jan. 29.—H. C. Pech was awarded the grain championship prize for the best ten ears of corn in the state entered in the Illinois Corn Growers' Exhibit which closed here today.

Bergland Brothers of Geneseo were awarded grand state sweepstakes in oats and W. J. Rapp of San Jose grand state sweepstakes on wheat.

Harvey Phillips of Orneida exhibited the best single ear of white corn in the state and A. A. Arnold of Leland the best single ear of yellow corn.

## ARREST TWO MEN ON CHARGE OF SENDING THREATENING LETTERS

SPRINGFIELD, Ill., Jan. 29.—James Bruno and Sam Salamandrino were arrested today in connection with the receipt recently by a number of wealthy Italians of letters in which the recipients were threatened with death unless they paid sums of money. Among those who received letters are L. G. Rittenhouse, president of the Springfield Produce company; and Antonio Liano, and Sam Sgro, grocerman.

Sgro failed to comply with the demands and a few nights later his place of business was dynamited.

## MR. NEWMAN SECURES AGENCY FOR ANOTHER GREAT CAR

William Newman, Jr. returned Friday from Chicago where he went to attend the automobile show. Mr. Newman has attended a good many other exhibits but found this the largest and most successful of them all. About eighty companies had cars there and the total number on exhibit ran well up into the hundreds. While in Chicago Mr. Newman secured the agency for another car which he will handle in this locality along with the Hupmobile and the Hudson, the two cars that he has sold to so many satisfied patrons in the past. Announcement will be made in tomorrow's Journal of Mr. Newman's latest addition to his splendid agency line.

## REPLIES TO SENATE DEMAND.

Des Moines, Jan. 29.—Governor George W. Clarke, today formally replied to the senate demand for a detailed statement of the so-called "graft" charges in his message to the legislature by citing instances in which he claimed the body maintained more employees than was necessary. He said the legislature was employing more doorkeepers than there were doors and kept more pages than were necessary.

## War News Summarized

Again it is in the east the the most sanguinary fighting is taking place—in east Prussia, in part of Poland and in the Carpathian range.

Most important of these engagements is that in east Prussia, well to the north of the Mazurian Lakes, where the Russians met a severe repulse at the hands of the troops of General Von Hindenburg in the early days of the war.

Petrograd says that near Borjow, in Poland, trenches were taken from the Germans by bayonet attacks and that on the Galician front of the Carpathians the Russians have made satisfactory progress.

Vienna declares that to the west of Usok Pass in the Carpathians the Russians have been repulsed with heavy losses and Petrograd probably confirms the fact that the Russians in this vicinity have met with a reverse by its statement that "in the face of superior numbers" in the region of Beskid Pass "our advance guards retired slightly to a previously established position."

In the west the only fighting of which prominent mention is made in the French official report occurred near Soissons, the region where the French recently were driven across the Aisne by the Germans.

Cairo reports that Turkish outposts have reached the vicinity of Tor, near the southern point of the Sinai peninsula on the gulf of Suez.

A royal decree has been issued calling to the colors Italy's soldiers of the first and third category and also the Alpine troops.

## ILLINOIS TO MEET CHICAGO IN FINAL GAME OF 1915 SEASON

Football Schedule is Made Public—Five Conference Teams Will Be Played.

Champaign, Ill., Jan. 23.—The University of Illinois football team, championship holder of the western conference, will meet the University of Chicago team at Chicago in the final game of the 1915 season, according to the schedule made public today.

Five conference teams will be played and the Haskell Indians and the Rolla School of Mines teams will form the operation in the practice games.

The schedule follows:  
October 2nd—Haskell Indians, Urbana.

October 9th—Rolla School of Mines, Urbana.

October 16th—Ohio State University at Columbus.

October 23rd—Northwestern University, Urbana.

October 30th—University of Minnesota, Urbana.

November 13th—University of Wisconsin, Urbana.

November 20th—University of Chicago at Chicago.

## NAME IVY L. LEE A DIRECTOR OF THE COLORADO FUEL & IRON CO.

DENVER, Colo., Jan. 29.—President J. F. Welborn of the Colorado Fuel and Iron company announced today that Ivy L. Lee had been elected a director of the company, taking the place of Jerome D. Greene, resigned. Greene's resignation was accepted and Lee elected at a meeting of the board of directors yesterday.

Lee has been mentioned prominently in the Denver and New York hearings before the federal commission on industrial relations as the man who prepared pamphlets for the Colorado coal miners strike for distribution by the Colorado Fuel and Iron company. As a director of the company he is considered a personal representative of the Rockefeller.

## RELIEF SHIP WILL BE SENT TO PALESTINE AND SYRIA

Vessel to Carry Food to Famine Threatened People—Assurances of Safe Conduct Have Been Given.

Washington, Jan. 29.—A ship loaded with food for famine threatened people of Palestine and Syria will be despatched from the United States soon by the provisional Zionist committee. It was announced today that assurances of safe conduct for the vessel had been given by the state department by the British, French and Turkish governments.

Louis D. Brandeis of Boston, who with Rabbi Stephen S. Wise and Rabbi J. L. Magnes of New York made the announcement, called at the state department today and informed officials there that the food ship would be selected within the next few days and that plans for providing the cargo already had been worked out. Nathan Strass of New York has subscribed \$50,000 to the fund.

The food will be distributed through American consular agents not only to Hebrews, but to Mohammedans and Christians as well.

## ARRESTED FOR BOOTLEGGING.

Raymond Fernandes was arrested by Deputy Sheriff Harry Norris Thursday afternoon on a charge of selling liquor in anti-saloon territory. Bond was given for his appearance at the May term of the Morgan county circuit court and he was released.

## PRESIDENT PREDICTS AN ERA OF PROSPERITY

### ADDRESSES CONVENTION OF AMER- ICAN ELECTRIC RAILWAY ASS'N.

Wilson Outlines What the Democratic Congress Has Tried to Accomplish—Gives Some "Rules of the Game" Which He Thinks Ought to be Followed.

Washington, Jan. 29.—Another confident prediction that the country soon will enter upon a new era of enterprise and prosperity was voiced today by President Wilson in a speech before the convention of the American Railway association.

Speaking to business men and through them to the world of business generally, the president outlined what the Democratic congress has tried to accomplish through its trust legislation and declared that while a test period would be required to determine whether the correct remedy had been applied, he believed the maze of interrogation points which had checked enterprise for twenty years had been cleared away.

With a common understanding regarding business reached, he said, henceforth nobody is going to be suspicious of any business just because it is big. He gave some of the "rules of the game" which he thought ought to be followed, heading the list with publicity—"not doing anything under cover."

"I for one have never doubted that all America believed in doing what was fair and honorable and of good report," said the president. "But the method, the method of control by law against the small minority that was recalcitrant against these principles was a thing that it was difficult to determine upon. And it was a very great burden, let me say to fall upon a particular administration of this government to have to undertake practically the whole business of final definition. That is what has been attempted by the congress now about to come to a close. It has attempted the definition for which the country had been getting ready or trying to get ready for nearly half a generation.

"It will require a period of test to determine whether they have successfully defined them or not but no one needs to have it proved to him that it was necessary to define them and remove the uncertainties being removed common understanding are possible and a universal co-operation.

"In the first place I feel that the mists and miasmic airs of suspicion that have filled the business world have now been blown away. I believe that we have passed the era of suspicion and have come now into the era of confidence. Knowing the elements we have to deal with, we can deal with them and with that confidence of knowledge we can have confidence of enterprise. And that enterprise is going to mean only."

"Nobody is henceforth going to be afraid of or suspicious of any business merely because it is big."

"The era of private business in the sense of business conducted with the money of the partner—I mean of the managing partners, is practically passed not only in this country but almost everywhere. Therefore, almost all business has this direct responsibility to the public in general. We owe a constant report to the public, whose money we are constantly asking in order to conduct the business itself. Therefore, we have got to trade not only on efficiency, not only on the service that we render but on the confidence that we cultivate. There is a new atmosphere for business. The oxygen that the lungs of modern business takes in is the oxygen of the public confidence and if you have not got that, your business is essentially paralyzed and as asphyxiated."

## GIVES ASSURANCE OF BUREAU'S SUCCESS

Washington, Jan. 29.—Assurances of the success of the department of labor's nation-wide employment bureau were given President Wilson and the cabinet today by Secretary Wilson. The secretary explained that promises of co-operation received from a large number of industrial concerns and other employers of labor made it certain that the bureau would be able to carry out its purpose of bringing the homeless job and the jobless man together.

## AMERICAN SOLDIER KILLED

El Paso, Texas, Jan. 29.—William B. Warwick, a private in Company G, 16th Infantry was instantly killed by a bullet said to have come from the Mexican side of the Rio Grande this afternoon. The American soldier was lying in his tent near the river when the stray bullet struck him.

A band of army officers investigating the shooting announced that the shot had been fired from the Mexican side of the river. Further investigation is being made.

## NO FOREIGNERS INJURED.

Washington, Jan. 20.—Although the rapid change in Mexican politics have brought the authority of General Carranza back to Mexico City once more after a lapse of two months, the evacuation of the capital and re-distribution of forces has resulted in no injury to foreigners, according to official reports thus far received.

## STATE EXPENSE OF QUARANTINE AND CURE OF STOCK IS HEAVY

Owners of Prize Stock Declare in Case of Ordinary Farm Stock it is Cheaper to Slaughter Animals.

Chicago, Jan. 29.—Although the quarantine established over the blooded herds of cattle stricken with foot and mouth disease has shown that the animals can be saved, the expense of quarantine and cure is so great that in the case of ordinary farm stock it is cheaper to slaughter the animals, according to a statement made public today after a meeting of the owners of the prize stock. The blooded animals have been in quarantine here since the first appearance of the epidemic. Not an animal has been lost from the disease. Considering the cost of the quarantine, however, members of the dairy association today recommended that owners of ordinary herds accept the decree of the authorities and permit the slaughter of their cattle.

## BRITISH AUTHORITIES HOLD UP BELGIAN RELIEF SHIP LYNERTA

Detain Vessel Because She Had Small Bundle of Tents in Cargo—Search for Other Contraband Before Releasing Steamer.

New York, Jan. 29.—The commission for the relief of Belgium announced today that its chartered steamship Lynerta had been held up for two days by the British authorities at Falmouth, Eng., because she had in her cargo of food supplies a small bundle of tents, which were held to be contraband of war. The ship was released yesterday and allowed to proceed to Rotterdam, according to a cablegram received by the commission, but not before she had searched for other contraband. The tents were a part of a contribution from the people of Virginia and intended for homeless Belgian refugees.

In consequence of the contention the commission contended that it was obliged to issue instructions to its shipping agents that all items on the contraband list must be excluded from future donations.

## QUIZ KEEFE AS TO HOW MEN WORKED TO EARN HIGH PAY

Cross-examination Shows Engineer Man Worked Fourteen to Seventeen Hours a Day For Extended Periods.

Chicago, Jan. 29.—J. H. Keefe, having testified in the forenoon before the western railroad wage arbitration board that engineers are highly paid, was quizzed during the afternoon as to the hours of work done by some of them to earn this money.

Keefe, who is assistant general manager of the Gulf, Colorado & Santa Fe railroad, was cross-examined by Warren S. Stone, representing the engineers. He said he was particularly attracted by instances of high pay to men in service other than passenger trains.

"Take this man J. A. McCreedy of the Canadian Northern," said Mr. Stone. "He is one of those chaps who made more than some governors, apparently. He made \$333 in the month of October, 1913. What hours did he work?"

"He worked fourteen hours and forty-five minutes a day for nineteen days on a through freight and seventeen hours a day for twelve days," replied Keefe.

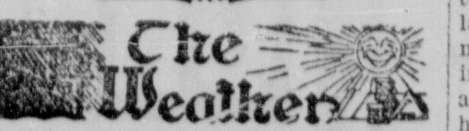

## SUPPORTS SOUTHERN PREACHER'S STATEMENT

Atlanta, Ga., Jan. 29.—James Conley, legal witness for the state in the trial of Dan S. Lehon and C. C. Teder who represented the Burns Detective Agency, and Arthur Thurman, a local lawyer on charges of subornation of perjury in the Frank murder case, testified today that he never had told another negro he killed a girl in the factory where Mary Phagan's body was found. His testimony was in support of the statement of the Rev. C. B. Ragsdale that such an affidavit reflecting on Conley was false and that he had been paid \$200 for signing it.

## ALL OF VIKTOR'S CREW PERISH

London, Jan. 29.—(9 p. m.)—A casualty list issued tonight shows that the British armored Merchant Vessel Viktor which was lost off the coast of Ireland several days ago carried a crew of 258, composed of naval reserve men and boys belonging to the mercantile marine, all of whom perished.

Among the crew were 21 royal naval reserve men from New Foundland.

## RUSS CLAIM ADVANCE IN THE CARPATHIANS

### DELIVER ENERGETIC ATTACK SOUTH- WEST OF DUKLA PASS

Develop Offensive in Extreme North in East Prussia—Armies in France and Flanders Recuperating After Strenuous Fighting—Entire Balkan Situation Remains Involved.

## BULLETIN.

Rome, Jan. 29.—(11:20 p. m.)—A royal decree has been issued calling to the colors the fallen soldiers of the first category, born in 1888 and belonging to the field artillery and also the Alpine troops and the soldiers of the third category born in 1891, 1892, 1893 and 1894, belonging to the Alpine troops.

Another royal decree was issued later under the terms of which all retired officers, fit for service are liable to be recalled for active service until the end of 1915.

## BULLETIN.

Vienno, via London, Jan. 29.—(3:23 a. m.)—The Vienna Neue Presse announces that the resignation of M. Von Biinski as Austrian minister of finance is imminent.

## BULLETIN.

London, Jan. 29.—(10:35 p. m.)—With the armies in France and Flanders recuperating after the strenuous fighting of the earlier days of the week and only local actions being recorded, interest in the war situation has been transferred to the Russian offensive in east Prussia and the attempt of a strong Austro-German army to dislodge the troops of Emperor Nicholas from their positions in the Carpathians.

In east Prussia a Russian offensive has developed in the extreme north, where the renewed fighting seems to confirm the belief that a definite effort to advance north of the Mazurian Lakes district, where previously the Russians were defeated, has been decided upon by the Russian general staff.

More vital to both sides, however, is the campaign in the Carpathians where, southwest of Dukla pass, the Russians have delivered an energetic attack. According to their account of the combat they compelled the Austro-Germans to retreat having behind ammunition and stores. This attack, according to military observers indicates an attempt by the Russians to turn the flank of the Teuton allies. If it should prove successful observers say, it would have serious consequences for the large Austro-German army in and about the Carpathian passes.

Russian military experts anticipate that the Austrians will deliver their main attack with their extreme right in western Bukovina in the hope of achieving a signal victory and thus give Roumania cause to pause. The only thing holding Roumania in check at present, it is stated, is the uncertainty as to the action Bulgaria would be likely to take. Bulgaria, it is asserted, is still demanding that part of Macedonia now under Serbian rule as the price of her neutrality and Serbia is reported unwilling to make this concession.

Greece, it is asserted, also objects to Bulgaria extending her boundaries westward, taking the ground that this would place a wedge between her and ally Serbia. Thus seemingly, the whole Balkan situation remains involved and it is stated it is not likely to be cleared up until the demands of Bulgaria are satisfied.

Another skirmish with the Turkish advance guard not far from Suez is reported by the British forces in Egypt. It was not of a serious character. British marines are said to have landed at Alexandria, Asiatic Turkey, and to have cut the telegraph wires.

## TRADE CONTINUES TO MOVE IN DIRECTION OF IMPROVEMENTS

Idleness is Decreasing and Winter Weather Over a Wide Area Has Helped Reduce Stocks of Heavy Goods.

New York, Jan. 29.—Bradstreet's weekly review will say tomorrow: "The pendulum of trade continues to swing in the direction of improvement. Starting at a very slow pace three weeks ago it is now moving at a more satisfactory rate, though even yet the movement is but conservatively steady. Almost everywhere the disposition is to look on the bright side of things, evidence of spring buying especially of textiles continues to multiply. The labor situation, while far from normal, is such that idleness is decreasing, winter weather over a wide area has helped reduce stocks of heavy goods, money is cheap; commodity prices are higher, funds are plentiful in the cereal growing regions, winter wheat is in good shape, the south is more optimistic because of free sales of cotton from warehouses, copper is bigger and still mill operations are being increased.

"Bank clearings for the week were \$2,978,817,000, a decrease of 21.3 per cent from last year.

"Wheat exports aggregated 8,619,869 bushels against 3,717,678 bushels a year ago.

"Failures in the United States were 552 compared with 453 in 1914; in Canada 54 compared with 1914."

## LARGE AUDIENCE GREETED MUSICIANS OF ADELPHIAN LITERARY SOCIETY

Annual Concert Last Evening at J. H. S. Auditorium Credit to High School Organization—Some Features of the Program.

Excellent training and discriminating interpretation were manifest last evening in the two-part musical performance given at 7:45 o'clock in the high school auditorium and a large audience was present to greet the members of the Adelpian Literary society in their annual concert.

Floyd Williamson, as president of the society called the meeting to order, and Miss Violet Davis occupied the secretary's chair. Misses Helen Struck and Anah Hembrough accompanied the performers in a very creditable manner. The success of the event was in considerable measure due to Miss Helen Sorrells, Adelpian musical director, and to Miss Adelle Goodrick, general musical director, who had especial charge of the second part of the program. The violin trio in a Beethoven number; the Bohm selection by Earl Briscoe the "Old Maids' Chorus" and the Dutchman's humorous "Vot is it," were received especially well. On the entire program, there was not a production without merit and the society has good reason to feel gratified with the success of the annual concert.

Following is the program:  
**Part I.**  
Cornet solo: "Dream" . . . Bartlett  
Harold Boyd, center; Dalo  
Vocal solo: "He Comes No More" . . .  
Dorothy Hite

## MORTUARY

Widmayer.

Ernest P. Widmayer, county assessor and treasurer of Cass county, died at his home at Virginia at 12:30 o'clock Friday morning. The deceased was sixty-six years of age and had for many years been a prominent resident of Cass county. He engaged in the meat and cattle business there for almost forty years and was known to practically every resident of the country. He took an active part in the political affairs of Virginia and Cass county for a long period and had held office as alderman, mayor, sheriff and county treasurer.

When a lad of fourteen he enlisted for service in the Union army, and had a record as a loyal soldier. He is survived by his wife, three sons and three daughters. The sons are Edward of Chicago, Lee and Walter of Virginia. Edward Widmayer is in the employ of Swift & Co., of Chicago, and Walter is the manager of the Virginia Gazette. Mr. Widmayer was a brother of the late Charles Widmayer and was known almost as well in Morgan county as at his home. His nephew, W. F. Widmayer, was with the family when the final hour came. The business and private life of the deceased were such as to merit the commendation of all who knew him. The funeral will be held at the Methodist church in Virginia at 2 o'clock Sunday afternoon. W. F. Widmayer and family and a number of others from this city will attend.

## MATRIMONIAL

Covey-Seymour.

Vessey Covey and Miss Helen Seymour, both of Franklin, were united in marriage by W. T. Dyer, J. P., at the Court House at 11:30 a. m. The groom is the son of W. F. Covey and a farmer by occupation. The bride is the daughter of Mr. and Mrs. George M. Seymour. The ceremony was witnessed by J. J. Ferry and W. F. Roegge. The young couple will reside on a farm east of Franklin.

WITH THE SICK.

George Faul has been confined at his home on West North street with a severe attack of rheumatism. Harry D. Anderson, who for some time has been kept from his duties with the Jenkinson-Bode Co., by illness at his home on East College avenue, was able to be about Friday. Weir Smith, a student of the high school, who sprained a ligament while practicing basketball, is detained at home.

## BURNED HOLE IN ROOF.

The fire department was called to the residence of George R. McKee, 411 North Fayette street, Friday morning. A small place had been burned about the chimney from a defective flue and the loss was slight.

C. S. Rannels of Chicago was in the city yesterday on business with Bancroft & King, local agents of the Federal Life Insurance Co.

## QUINCY WILL PLAY JACKSONVILLE TONIGHT

LOCAL FIVE TAKES ON ADAMS COUNTY QUINTET.

Curtain Raiser Between Teams of the 7th and 8th Grade Will Precede Big Contest—Illinois Plays Millikin in Decatur This Evening.

Local basketball enthusiasts are interested in the two games to be played this evening. Jacksonville high takes on Quincy high school and Illinois college five will go to Decatur to play Millikin university.

The Quincy team has been playing some good ball recently so that the game promises to be one of interest as the local men claim to be in good shape. At the meeting of the J. H. S. Literary and Athletic association yesterday it was decided to have a curtain raiser between teams representing the 7th and 8th grade. This game will be played at eight o'clock and those of the students who buy tickets of teachers can be admitted for fifteen cents. This is done to give those pupils a chance to see a basketball game and to create an athletic atmosphere. The big game will commence at 8:30 and the management has promised no debate over officials.

Jacksonville will line up as follows: Emil Mayer, center; Dalo Boxell, right forward; Warren Maddox, left forward; Walter Hembrough, right guard; Killibrew or Swain, left guard.

**Illinois vs. Millikin.**  
What promises to be a fast and hard fought game will be staged at Decatur between Illinois and Millikin tonight. Earlier in the season Millikin piled up a good score against Illinois, but since that time Illinois has been showing greater strength so that a close score is expected. Coach Harmon and team will leave this morning over the Wabash. His lineup will be: Frisbie, center; Gary, McLaughlin and Capps, forwards; Atchison, Pierce and Stewart, guards.

The Decatur Herald says: "The Millikin players are in the best of condition and they expect to put up a better brand of basketball than they did against Wesleyan last week. Acker and Walraven will be at forward positions; McDavid at center and Klieck and Catlin at the guard positions."

## FRANKLIN DEFEATED HERE AND WINS VICTORY AT HOME

High School of Franklin Lost to Routt College Here by Score of 28 to 7—Franklin Town Team Wins From Chapin 30 to 8.

The Franklin high school team was defeated here last night in Liberty hall by the Routt high five, the score being 28 to 7. The visitors were clearly outclassed and Froehlich distinguished himself by making 18 points for Routt.

The following was the score:

## FRANKLIN 30; CHAPIN 8.

The Franklin town team gave a hard fight to the Chapin five last night on the Franklin floor when they defeated 30 to 8. The score at the end of the first half was 16 to 6. W. Teany was the highest individual scorer for Franklin getting 22 points. Franklin plays Waverly at Franklin next Friday night. The tie game with Girard will be played in about three weeks on the new floor at Carlinville.

## SECOND HIGH SCHOOL TEAM DEFEATS WHITE HALL HIGH

Jacksonville Five After Being Defeated in First Half Whips Up and Takes Contest 27 to 14, on White Hall Floor.

After being defeated in the first half of a spirited basketball game at White Hall Friday evening, the Jacksonville high school second team, defeated the White Hall five by a score of 27 to 14. The White Hall boys displayed better team work in the first half and had no trouble in making the score 10 to 9 in their favor. The Jacksonville quintet seem to find themselves in the second half and rolled up enough points on their opponents to

make the score 27 to 14. The game was hotly contested and there was a good crowd present to witness the struggle. In the second half the White Hall team seemed to lack the endurance the J. H. S. men had. Mayer and Ricks played the best ball for Jacksonville.

White Hall has defeated Routt high by a score of 35 to 7 and was beaten by the Franklin town team by a score of 27 to 7.

The lineup follows:  
White Hall—Atterbury and Rhodes, forwards; Hyle center; Gardner and Bridgewater, guards. J. H. S.—Fred Mayer and Ricks, forwards; Swain and Killibrew, guards; Tomlinson, center.

The officials were R. G. Smith, referee, White Hall and Carlon Campbell, umpire, a student at Illinois college.

## AT THE CAR SHOPS.

John Flanagan, boiler maker helper is laid up with illness.

Only two engines were in the round house Friday morning but more are soon expected.

Engines 50 and 51 are in the roundhouse awaiting attention.

Tenders numbers 4, 23, 30, 55, 59 and 65 are in the roundhouse being put in shape.

The veteran storekeeper, John Devlin, was not on duty Friday.

William Henry and Clarence Wilkinson of the machine shop expected to enjoy Saturday and Sunday with friends in Springfield.

In the machine shop the smoke box of engine No. 4, is being put in place.

The heating apparatus is being improved in the mill. The cold weather has made the men shiver rather lively.

Bowen Kindred of the mill was kept at home Friday by a sick child. He is an afflicted man in that respect having lost one child within a few days.

The force of carpenters will be put to work in the wood shop next Monday making employment for a good number of men.

Switch engine No. 6, has been sent out of the shops ready for business and Friday came an order for Thomas Heaton to take her to Pekin for work in the yards there; take the switch engine there to Peoria and bring switch engine No. 2 from Peoria to the shops for an overhauling.

Engine No. 67 is in for a general overhauling.

The bridge and building force are to be here next week to repair the shop buildings.

Prospects for increased amount of work in the near future are good as considerable rolling stock needs overhauling.

Passenger engine No. 33 is going the way of all the earth. It was built in 1886 by the American Locomotive Works in Rome, New York. During the subsequent years it has been in quite constant use pulling passenger trains and has done good service, but long use has so put it out of commission that the cost of repairing it would be too much for a wise investment. Yesterday they took down the frame and are putting the boiler on a flat car and breaking up the parts generally.

During the present cold snap the men in the round house have had hard work to keep warm but Master Mechanic Imgrund has done his best and with good success. He has exerted himself to the utmost for the welfare and comfort of the employees and supplied them with movable stoves in the shape of boiler iron tubes twenty inches in diameter and these set on brick or stone and fired have made very good conditions generally and the men have not suffered.

The cold weather has not been enough to keep at home Mr. Dickens and George Yeck of the blacksmith shop. Though the oldest men in the shop they have been right on their jobs.

Charles Pires is one of the liveliest men in the blacksmith shop and can handle iron second to none.

**MARRIAGE LICENSES.**

## SOCIAL EVENTS.

Gilbert Masters, Jr., of South Main street, entertained a number of friends at dinner last evening, the occasion being his fifth birthday. A most enjoyable evening was spent by all present.

Miss Grace Hart entertained about thirty guests at her home on Hardin avenue Friday evening in honor of Miss Florence Garvin of Roodhouse, who is a guest in the city. The evening was spent most pleasantly in games and in a social way. At a late hour substantial refreshments were served.

Mrs. Walter C. Bradish, 1130 West College avenue, entertained the members of the South Side Circle at their regular weekly meeting yesterday afternoon and Mrs. W. W. Gillham lead with an enlightening paper on "The World's New Marvels." Luther Burbank, the wonder worker of southern California, was Mrs. Gillham's theme.

Next Friday the club will meet with Mrs. Nelson McMurphy, 1204 West College avenue.

The Inner Circle Bible Class girls took part in the birthday celebration of one of their members, Miss Ruth Coyle, Thursday evening. Music and games furnished the amusements and kodak pictures were taken of the merry crowd by Elizabeth Coyle. Excellent refreshments were served and Miss Coyle received a number of pretty and useful presents.

Among those present were Mrs. Emma Henderson and four children, Caroline Feltag and three little brothers; Effie Sheppard, Mabel Patterson, Ruth Williams, Irene Taylor, Vella Spencer, Hilda Fanning, Hazel Busby, Helen Self, Helen Snyder, Myrtle Earley, Ruth Smith, Ola Sheppard and Ruth and Elizabeth Coyle.

The North End Social Club celebrated the anniversary of the club at the residence of Mrs. Marion Meadows Friday afternoon. An excellent program was rendered by the following:

Song by the club—"My Country 'Tis of Thee."  
Welcome address—Mrs. Abner Strong, president.

Response—Mrs. N. J. Blue, president social domestic science club.  
Paper—Mrs. G. W. Cooper.  
Reading—Mrs. L. Meadows.  
Paper—Mrs. Thomas Parker.

After the program lovely refreshments were served and a social hour enjoyed. In the button hole contest Mrs. N. J. Blue was awarded first prize and Mrs. Brooks second. The next meeting of the club will be held at the residence of Mrs. L. Meadows.

**Dr. Edwards' Olive Tablets**

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

**SHERMAN REPLIES TO PRESIDENT'S SPEECH**

ILLINOIS' SENATOR ARRANGS EXECUTIVE.

Promises Country an Early "Return to Prosperity" Under Republican Rule and Restored Protective Tariff at Indianapolis.

Indianapolis, Ind., Jan. 29.—Senator Sherman of Illinois, replied to President Wilson's recent Jackson Day speech here tonight in an address before the Indiana Republican Editorial association. He arraigned the president and his administration, criticized the work of the present congress and promised the country an early "return to prosperity" under Republican rule and a restored protective tariff.

Quoting the president's declaration that the Republican party had not had a new idea in thirty years, the senator asked:

"Where has this Rip Van Winkle slept the last thirty years who now rubs his eyes and says that Republican party has not had a new idea in all that time? The great national statistics of thirty years have sprung from the councils of that party. He cannot distinguish between the morning light of Republican sun-rise of things doing and done, and the dusk that is falling on the Democracy."

"The president recently admitted in Indianapolis," Senator Sherman said at the outset, "that the Democrats are a minority party and that they are still on trial. The returns of the last November election indicate that he is unable to distinguish between a trial and a verdict against the defendant."

**Election by a Minority.**

Referring to President Wilson's election "by a minority" when the majority was divided, the senator said:

"If three men be in a race and two stop and quarrel the third can walk to the goal and win. But let not the victor exult in his speed for he won not on his own swiftness, but by the quarrel of his adversaries. The less shall he invoke his deceptive strength to justify legislation to which his adversaries are both opposed. For when his adversaries shall see what has been wrought by President Wilson they will rise together and overthrow him."

"The president must and does assume the responsibility for both the legislative and executive acts of his administration. Congress, until recently, has only registered his executive decrees. The first sign of legislative independence evokes a threat against congress that disobedience to his orders will bring 'deep bitterness to them.'"

"These are not the words of a constitutional president sworn to perform his duties. They are the lawless proclamations of a man who has thrown aside the order and procedure of government by law and substituted the unregulated will of the arbitrary and accidental man."

"The president assaults the United States senate in language which senators are forbidden to use to each other even in the acrimony of personal debate. While his attack is on the Republican minority it reaches all senators who do not agree with him."

"In dealing with men nothing is gained by peremptory orders to shut up. This language may be used in the kindergarten. An executive who applies it to the United States senate betrays his inability to grasp the difference between an independent legislative power in the conduct of human affairs and the absolute dominion of his arbitrary impatience."

**Senators Not Ignorant.**

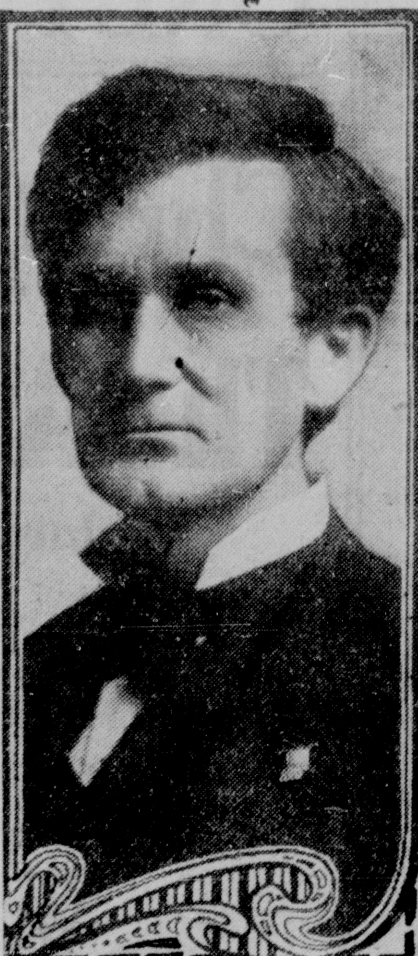

"Cease your talking," he says. "You are misguided, blind, ignorant. I have settled everything. I have cleared the decks." He has said how the business of the country shall be done, how the Philippines shall be governed, how our water-powers shall be handled, how the resources of the public domain imprisoned by excessive conservation shall be unlocked, how the government freight boats shall be run by the government at a cost of profit and then sold out to the minority share holders or somebody else and not be guilty of a subsidy condemned by the Democratic party for half a century. He can do everything except keep the treasury building through the treasury building."

"Still, the Republicans are ignorant and have not had a new idea in thirty years. Republican senators were elected by a direct vote of the people in Connecticut, Vermont, New Hampshire, New York, Pennsylvania, Ohio, Iowa, North Dakota, Kansas, Utah, Washington, Idaho and Illinois. Why should the chief magistrate stigmatize them as ignorant? They represent their constituents."

"Call the roll of thirty years!" continued Senator Sherman. "Labor punctuated only by the idleness of Democratic administrations; manufacturers were active; our foreign commerce rose with every year, neither was it dependent on war supplies for its volume; continuance or trade balances. Restraints of trade and monopolies were curbed. The first great anti-trust act was drawn by a Republican. It is the same level from which the heights and depths of effective legislation have since been measured."

After enumerating measures enacted during "the greatest chapters of American history, written in the years of Republican ascendancy," the senator compared them with recent legislation, criticizing the present tariff law, the federal reserve act, the trade commission act, the anti-trust bill and the Mexican policy.

"The civil strife in that unhappy land," he declared, "is directly chargeable to the vacillating, nerve-

less, purposeless course of President Wilson's administration. He undertook to decide on the moral title of various military dictators struggling for supremacy. What chance is there between Villa and Huerta? If Jesse James were alive he could be substituted as a great moral improvement on both."

If the Republican party were returned to power, Senator Sherman concluded, "It will restore the protective tariff; confidence will follow and the army of the unemployed will disperse. Business will again move in its accustomed channels and enterprises no longer halt by the wayside."

**Some Republican Achievements.**

Republicans created the Bureau of Labor and made its head a Cabinet member. It enacted the first contract labor law, abolished child labor in the District of Columbia, passed a liability law compensating workmen. Pure food and meat inspection acts, limited hours of labor in interstate service, rural free delivery, parcel post, postal savings banks, reclamation of arid lands, the Isthmian canal, Hawaii and Samoa were made our outposts in the Pacific Ocean—all answer to that call. The rights of labor have been secured under just laws. Great police regulations have safeguarded the public. The history of American finances is written by the Republican party. It fought repudiation and fiat money. It passed the resumption act against the evil prophecy of the Democratic party. It refunded the public debt, and it is carried today at the lowest interest rates known to the civilized world. It sent free silver to an unmarked grave; 16 to 1, once the war cry of a great party, is a jest; none know it but scorn it; none name it but to laugh. The Republican party established the gold standard and created the Monetary Commission and the original emergency currency act. The Democratic party party, with its fatal capacity to misinterpret and miscreate from the material and experience gathered, produced the Federal reserve law. It will duplicate Frankenstein. It is not merely a central bank; it is a centralized person with greater power than ought to be vested in any one man over any lawful business."

The arm of the postal service reached out to cheapen communication and encourage thrift. The two great oceans were joined under the American flag. Where has this Rip Van Winkle slept the last thirty years who now rubs his eyes and says the Republican party has not had a new idea in all that time? The great national statistics of thirty years have sprung from the councils of that party. He cannot distinguish between the morning light of the Republican sunrise of things, doing and done and the dusk that is falling on the Democracy. Samuel Pepys, the Englishman who kept a diary, records that once, after a night of revelry, he woke from a deep sleep and mistook sunrise for sunset. History still repeats itself.

**Republicans Bring Prosperity.**

One great issue towers above and divides the voters of the United States. Other questions may come and go, but the protection of the American people's industrial life overshadows them all. It reaches into the depths of the permanent sources of prosperity. There is a deep-seated feeling among the people that business is more prosperous, work more abundant at fair wages, and that they are better off under a Republican than a Democratic administration. This belief, traced to its source, is founded on historical fact. The abandonment of the protective system has always been followed by disaster. A revision of the tariff by the Democratic party has always produced adversity and business depression, as uniformly redeemed by the return to the protective schedules of the Republican party. When revision becomes necessary, the Republicans preserve the protective features and the Democrats destroy them."

The Republican party bases the duty on conditions and builds it high enough to keep the pay-rolls in our country at American wages and standards of living. It secures the home market for our own producers. It sees no advantage in creating either idleness or an excessive surplus by flooding the country with free listed or revenue duty imports. It exalts the home market above

any to be reached at the expense of freight commissions, inspection charges, and foreign tariffs. The American people instinctively know that we ought to be able to supply by our own industry all of every article we have facilities to produce equal to our wants.

The people understand that supplying our home market with the work of their own hands makes the difference between activity and idleness, between a Republican and Democratic administration. We therefore limit the imports of a competitive article the like of which we can produce in quantity adequate for our needs by a protective duty on the article. This further gives revenue, collected as toll, from the importer and tends to equalize differences in conditions of production. When we have so supplied our own wants we seek a foreign market for our surplus, so there may be no idle period. We know, however, the American market is the greatest field for the employment of our people and the sale of our products. Secretary Redfield will lecture us in vain on foreign markets. This generation has learned once more that distance lends enchantment to its view.

The Democratic tariff reform is always conceived in theory but enacted in sectional discrimination—protective in a few places and destructive in all. From the horizontal reduction of Morrison to the perpendicular ruin of President Wilson, it is the signal for everybody to hunt his storm-cellar till the Democratic administration is over. It is always a good time to rest if one can keep from worrying too much.

**Democratic Extravagance.**

From December, 1913, to November 30, 1914, disbursements of the government exceeded its receipts by nearly \$15,000,000. During this time we had an internal revenue tax, a corporation tax, an income tax, a war tax, and a tariff for revenue only with promises of others as soon as the administration can take a day off from devising new bills to increase the Treasury deficit.

The Democratic party holds the record as the spendthrift of nations for over half a century. The sum of \$35,000,000 has been appropriated for a government railway in Alaska, \$25,000,000 will be asked to console Columbia for her failure to blockade the construction of the Panama canal, unless her rapacity and insolence are satisfied; \$10,000,000 increase in salaries and creation of new offices, and \$100,000,000 increase over the last Republican appropriation testify to faithful endeavors for economy and civil service reform; \$40,000,000 for a government steamship line rounds out a record to which Democrats can point with pride or view with alarm, as they may chance to be frugal or liberal in their dispositions.

Their tariff law opened our fields to the free-listed animals, grains, and manufacturers of the world. Its immediate result is seen in an influx of animal diseases and insect pests, in increased imports, decreased exports, diminished revenue, stagnation and distress, mitigated only by the horrors of the European war.

The federal reserve act places the great banking and credit resources of the country in the hands of one man. The resources of the national bank system have been commandeered for the benefit of states that represent a decided minority in agriculture, commerce, and manufactures.

A federal trade commission has been created. Its purpose is not to regulate but to manage business. The commission will supplant boards of directors chosen by private stockholders.

The anti-trust act amendment introduces new regulations and restrictions that will not be made plain to the average business man in twenty years. Neither individuals nor corporations can act without fear of indictment or disastrous reversal of their business policies.

Amendments of the postal laws have imposed heavy burdens on the railways without additional compensation. The rural free delivery service is in grave danger of impairment, and it is now proposed to abolish all the employees of that branch and substitute a star route contract system.

There is a manifest hostility to the railways of the United States exhibited by this administration. It is admitted in certain quarters if they shall be driven into failure in the performance of their great carrier duties the government will assume ownership.

**Proposed Remedies.**

What does the Republican party

offer? Why should it be returned to power? It will restore the protective tariff. Confidence will follow, and the army of the unemployed will disperse. Business will again move in its accustomed channels, and enterprise no longer halt by the wayside.

Great corporations necessary in modern affairs will be regulated and given the equal protection of the law. Monopolies will not prey upon the public, but will be converted into beneficial enterprises, obedient to wise anti-trust laws that will make certain what can rightfully be done. Certainty will be substituted for confusion, and business will not be under suspicion. Success will not be regarded as a badge of rashness and bankruptcy as the only conclusive presumption of virtue. Railways will not be condemned to perform an unrequited service, and the financial life of the great banking interests of the country shall not be subject to the arbitrary will of a single official.

Social justice will be wrought out in fairness. The workingman's rights, after a pay-roll gives him a chance to earn a living, will be safeguarded by progressive laws. A return of prosperity under the Republican party will ensure employment under such terms and conditions as will secure them their share of that prosperity.

**The Mexican Problem.**

A Mexican policy will be adopted that will protect our citizens and their possessions in that country. The civil strife in that unhappy land is directly chargeable to the vacillating, nerveless, purposeless course of President Wilson's administration. He undertook to decide on the moral title of various military dictators struggling for supremacy. What choice is there between Villa and Huerta? If Jesse James were alive he could be substituted as a great moral improvement on both. The result has swept its hapless people in the flame of constant revolution. Peace is less probable now than when Huerta was condemned by the president. Nothing is so precarious there as the rights of a citizen of the United States. The oil and oil wells of a subject of Great Britain are protected by a note from this administration, while the lives of American citizens have been taken with insolent cruelty without a protest. The note evoked by a demand from Great Britain is the only decisive act that breathed the power and dignity of this government since this administration assumed its high office. It is humiliating that this was to protect an alien's property, and it secured that protection promptly.

This administration has made us, under the Monroe doctrine, the dog in the manger of the western hemisphere. We have not protected the rights of aliens. The Monroe doctrine warns other nations to abstain. When will the European governments hold us liable for the pillage and destruction suffered by their subjects while we barred them from relief? Some future Hague tribunal may ask us why we are not responsible when we assume to be our brother's keeper.

An adequate navy and a rehabilitation of the army along the lines recommended by the secretary of war are imperative and a part of the Republican future.

**THE AUTO**

The auto is a lovely car in which to rip and race; but if the owner's truly smart, he'll make it know its place. "You'll do all right for leisure hours", he says, in earnest tones, "but I won't let you, by the powers, use all my stock of bones! If you should interfere with trade, or keep me from my biz, I'll put you where the junk is laid so help me now, G. Whiz!" I know so many who for fun burn up the country roads, and for that purpose borrow mon, and mortgage their abodes. They go chug-chugging everywhere, and keep the highways hot, and little do they seem to care if school shall keep or not. And then the sheriff, haughty gent, comes up and makes some spiels, and springs a legal document with large and crimson seals. The thought of those who waste their days in cars should cause us gloom; a thousand thousand dippy jays are chugging to their doom. The auto is a servant whose fame will never slump; but when it's master, friend of mine, 'twill lead you to the dump.

**I Treat Chronic Disease**

With my new Neuropathic System of Treatment

I will be at the Dunlap Hotel from 9 a. m.

Wed., Feb. 3 until 2 p. m. Thurs., Feb. 4.

If You Suffer Come and Consult Me, FREE

My neuropathic system of treatment means treatment through the nerves and circulation and relieving congestion. All diseased conditions are prolonged by disturbance of the circulation, congestion, pressure on, and weakening of the nerves; pressure on the glands or thickening of the tissues. The Neuropathic system of treatment relieves chronic conditions by giving renewed activity to the vital forces in the nerves, renewing circulation, relieving congestion and in this manner causes absorption of the disease deposits, removing swellings and thickening tissues and restoring normal conditions. No organ can remain diseased when the blood is circulating normally through it. This is the principle on which this treatment is founded. No disease should be incurable as long as the tissues are not too badly destroyed. Disease and weakness in any portion of the body should be curable up to that stage.

I have had the greatest success in giving relief to many cases of all manner of weakness and nervous troubles of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse and fainting spells. I have had wonderful success in treating all curable forms of Kidney troubles, Congestion of the Kidneys, Backache, Clogging up of the Kidneys, Irritation of the Bladder, Catarrh of the Bladder, Pain in the Bladder, and all weaknesses connected with these organs. I have had great success in treating Rheumatism, both acute and chronic, cleansing the rheumatic poison from the blood, creating new, healthy conditions, so that they are completely relieved. It is very successful in blood diseases, skin troubles, such as Eczema, Pimples, etc. It gives immediate relief to Stomach Troubles, Dyspepsia, Fermentation, Constipation and Liver Troubles, Nervous Disease and all forms of Chronic Diseases and Weakness of the Eyes, Catarrh and Deafness, Head Noises and Sick Headache.

I have had the most remarkable success in giving relief to many old chronic cases where other treatments had failed. No matter how long you have suffered or what your disease is, I ask you to come to me. I will examine you and tell you frankly whether or not you can be relieved by this new system of treatment. Many people have come to me in your city; said other doctors had done them no good or that an operation was necessary. They had about given up hope, and have been restored to health by me. I can give you as many private references as you wish of the results that I am getting with this system of treatment. Remember, I accept no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip.

## INDIGESTION, GAS OR SICK, SOUR STOMACH

Time "Pape's Diapiesin!" In Five Minutes All Stomach Misery is Gone.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapiesin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Advertisement.

## MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advertisement.

## RUB RHEUMATIC PAIN FROM ACHING JOINTS

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacob's Oil."

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Linger up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Advertisement.

## HOT TEA BREAKS A COLD—TRY THIS.

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee", at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—(adv.)

## PANAMA CANAL TOLLS DECREASE SLIGHTLY SINCE FIRST OF YEAR

(Associated Press Correspondence.) Panama, Jan. 20.—Tolls collected from ships that passed through the Panama Canal during December, 1914, aggregated \$411,895.44, an increase of \$24,653.04, as compared with November, the previous high month. The total amount of tolls collected to January 1, was \$1,547,100.45. Each of the first five months of canal traffic showed a substantial gain over the month previous but since the first of this year there has been a slight falling off in traffic and January probably will show a decrease over the record month of December.

The total tonnage, figured on a canal ton basis, that passed through the waterway aggregated 1,743,899 tons which was carried in 356 vessels of all classes. The December tonnage was not quite as large as the tonnage in November although the tolls collected were greater. The December tonnage was 446,415 tons as compared with November with 448,801 tons.

Of the 356 ships to use the canal, 26 were in ballast, or non-cargo carriers. Of the total tonnage 1,000,217 tons were carried in 177 east-bound ships and 743,682 tons in 179 westbound vessels.

## A WORTHY VETERAN.

E. H. Redburn of this city will celebrate his 75th birthday Monday. He is one of the men who served his country with devoted bravery during the great rebellion and is yet hale and hearty in spite of his age. Jan. 1st, 1862, he enlisted in Co. G, 60th Ill. Volunteers and saw service in various parts of the south. He re-enlisted before his three years had expired at Big Springs, Miss., and remained in the service till July 31st, 1865 when he was mustered out as first sergeant though he had received the commission of second lieutenant.

In 1862 his regiment participated in the siege of Corinth and the pursuit of the enemy for a good distance. Sept. 12th the regiment arrived in the vicinity of Nashville and remained there in the siege of that city until Nov. 8th. Here for a time all communications were cut off and the regiment saw some hard times and close calls, among them the engagement with General Morgan's forces at Edgefield.

They saw service in different localities and took part in the battle of Chattanooga and were ordered to Knoxville and then back to Chattanooga where in the fall of 1863 they arrived ragged and footsore and went into winter quarters.

Although they had seen so much hardship and such hard fighting the greater part of the regiment left re-enlisted during 1864 and served as long as there was anything for them to do. Not long afterward they participated in the battle of Buzzard's Roost which cost them heavily in killed and wounded.

In the spring began the memorable campaign about Atlanta and the regiment took part in the battles of Ringgold, Dalton, Resaca, Rome, Dalton, Newhope Church, Kenesaw Mountain, Mica Jack, Peachtree Creek, Atlanta and Jonesboro. The regiment was complimented by division and corps commanders for conspicuous bravery.

During the fall the regiment had varied experiences, skirmishes and marches "From Atlanta to the sea," during which they lived largely off of the country round about. They arrived at Savannah, Dec. 11, 1864, and into the city ten days later. Many contrabands joined them on the march. Jan. 6th, 1865 they broke camp and marched through a large number of places to Goldboro, North Carolina. They participated in the battles of Averville, March 16th, and Bentonville March 19, 20 and 21st. The later was a severe engagement and at one time the regiment was wholly surrounded and came near being cut to pieces but they all behaved bravely and were finally reinforced and escaped.

Various other experiences followed till the time of final mustering out with a grand record.

## LYNNVILLE.

Mrs. C. W. Lazenby was called to Alexander Thursday by the illness of her mother, Mrs. Hagen.

Little Mary Elane Harney, daughter of Robert Harney, has been very sick, but is now better.

Miss Thomasena Clerihan of Jacksonville, has been visiting at the home of her friend, Miss Pearle Fligg.

The young people of this neighborhood enjoyed a dance at the Masonic hall Tuesday night.

Friends in this vicinity have received word from D. N. Foster in Hopkinsville, Ky., that he has been very sick at the home of his sister.

William Fearnough has been sick, but is now improving.

Dr. Dyer of Merritt was called to our village Monday to see the sick. Among the sick are Opal Vanbeber, Mrs. John Dodsworth, Mrs. Todd and John Wilson.

Several of the young people enjoyed a hamburger fry at the home of L. M. Shirliff Saturday evening.

Foster Shepperd was a caller in Jacksonville Monday.

Rev. Ray Bracewell, Thomasena Clerihan and Pearle Fligg took Sunday dinner with Mrs. Nettie Shepperd.

We understand that Mr. Harney intends to stay another year on the Middleton farm, as Mr. Middleton expects to spend the coming year in California.

## LOG OF AUTO ROAD FOR THE BLUE BOOK

Information Detailed About Highway From Jacksonville to Valley City.

F. J. Heintz recently sent to the publishers of the automobile blue book a complete log of the Ocean to Ocean highway from Jacksonville to Valley City. For the first time the Ocean to Ocean highway will have a complete log in the blue book this year, as the road for its entire length has been chartered. The log which Mr. Heintz compiled from records furnished him, shows in detail the route to be followed, starting at the northwest corner of the public square and running north and west to Valley City. The distances from turn to turn are recorded, and other descriptive matter of the route is included. The material will be of value to automobile owners who drive this way and will also constitute an advertisement for Jacksonville. Mr. Heintz and other members of the chamber of commerce directors have the feeling that the more attention that can be paid to the marking of automobile trails, the better it is for Jacksonville. If trails are definitely outlined and complete information furnished in publications, travel will naturally be attracted this way, and certain it is that it will prove advantageous to Jacksonville to be permanently fixed as one of the cities along numerous auto routes.

## DECIDES LONDON MAY PROPERLY BE ATTACKED

(Associated Press Correspondent.) Copenhagen, Jan. 17.—"Is the bombardment of London permissible?" asks the Hamburg Correspondent. It examines the question at length from the standpoint of international law, and reaches the conclusion that London, although not a fortified town, includes the actual working machine of imperial naval and military defense, and must therefore be considered a fortified town, which may properly be attacked and destroyed under the provisions of the Hague Convention.

## SURGICAL MAGNETS.

Paris, Jan. 26th.—In the hospitals of France magnets have been developed that will draw fragments of shrapnel to the surface from a depth in the flesh of even six inches, and steel-jacketed bullets have been drawn out from a depth of more than two inches.

At the Invalids' Hotel in Buffalo, N. Y., are many as wonderful electric machines, high frequency currents, X-ray, violet rays. Then Dr. Pierce has equipped the Sanitarium with every known device to aid the sick and in the surgical department every instrument and appliance approved by the modern operator. The permanent cure of rupture is accomplished here without pain with local anesthesia. Stone in the bladder and Gravel are removed in many cases without pain and the patient can return home cured in a few days.

Dr. R. V. Pierce, nearly half a century ago, devised and used two prescriptions which were almost unfailing. They were made without alcohol or narcotics, extracted from roots and herbs by using pure glycerine and the ingredients are made public.

Dr. Pierce's Golden Medical Discovery is a tonic and blood purifier that cures pimples, blotches, sores, humors, eruptions and diseases of the skin.

Nothing stands as high today in the estimation of thousands of women as Dr. Pierce's Favorite Prescription—this is a soothing nerve tonic which cures the functional derangements and painful disorders of women. For girls about to enter womanhood, women about to become mothers and for the changing days of middle age Dr. Pierce's Favorite Prescription should always be on hand. In liquid or tablet form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free 136-page book on woman's diseases. Every woman should have one.

Dr. Pierce's Medical Advisor, clothbound, sent free to you on receipt of 3 dimes (or stamps) to pay expense of mailing only.—Adv.

Arthur Stanford as "Steven Denby" in "Under Cover" at the Grand, Monday, Feb. 1st.

## DRAMA LEAGUE ENDORSEMENT

The play committee of the Jacksonville center of the Drama League wishes to call attention to the booking of Under Cover at the Grand Monday. It is a bulletined play and should have the support of all league members. Under Cover is a melodrama, a story of detectives and smuggling, to delight the lover of such tales. The interest of the play is unlagging owing to the strong element of suspense. Surprise follows surprise through a series of complications which at times seem unbelievable, but all of which lead to the startling though logical conclusion. Under Cover will afford an evening of splendid entertainment. Play committee, Jacksonville Drama League.

## AFTER MANY YEARS.

Byron Sharp was among the visitors in Jacksonville Friday. This is the first time he has been here in 50 years and naturally sees many changes. He had been to Enfield, Ill., to attend a funeral and was on his way home to Fairfield, Iowa.

## MR. CRUM RETURNS HOME.

W. H. Crum, who has been a patient at Passavant hospital for the past three weeks where he underwent an operation, was able to return to his home in Litchberry Thursday. He is gaining rapidly in strength and his many friends are glad to learn of his restoration to health.

J. L. Brown of Redfern was a caller on Jacksonville merchants yesterday.

## U. S. STEEL AGAIN ACTS AS PIVOT AROUND WHICH MARKET REVOLVES

Common Stock is Very Extensively  
Traded in—New Haven is Weak  
Issue—Canadian Pacific Heaviest  
of All the High Priced Issues.

New York, Jan. 29.—United  
States Steel was again the pivot  
around which the stock market re-  
volved today. The common stock  
was very extensively traded in,  
mostly at 40, its new minimum, a  
few thousand shares being sold at  
a fraction above that price. Liquidation  
in that issue was on so large a  
scale as to represent 40 per cent  
of the first hours entire business. The  
preferred stock also yielded part of  
its recent recovery.

New Haven was another weak  
issue, selling off 4½ points to 49,  
its minimum incidentally the low-  
est price in the history of the com-  
pany. The decline coincided with  
rumors that the company's applica-  
tion to issue preferred stock had  
been denied by the Massachusetts  
authorities. Canadian Pacific was  
heaviest of all the high priced is-  
sues, losing over five points on per-  
sistent selling, much of which was  
ascribed to European sources. The  
company's statement of earnings for  
December, indicating a net loss of  
over \$2,800,000, was in itself re-  
garded as sufficient cause for dis-  
couragement on the part of the  
holders of the stock. Declines in  
lowest prices, all around occurred in  
the final hours, renewed liquidation  
in Reading, Union Pacific and  
other speculative favorites produc-  
ing a weak close.

In addition to the foreign offer-  
ings of Canadian Pacific sales for  
European interests were probably  
the largest of any recent day. Ab-  
rogation of the rule prohibiting  
sales except for cash has resulted  
in a heavy movement of our securi-  
ties from abroad. This is espe-  
cially applicable to bonds of specu-  
lative character.

## RUMORS OF PEACE MOVES HAVL UNSETTLING EFFECT ON WHEAT

Market Closes Nervously at a Drop  
—Other Leading Staples Show  
Net Losses.

Chicago, Jan. 29.—Rumors of  
peace moves had an unsettling ef-  
fect today on the wheat market. As  
a result there was a nervous close  
at 1½c to 1½c under last night. Other  
leading staples too showed a net  
loss—corn ¾c to 1½c; oats, 5c  
and provisions 10c to 20c.

Strained conditions in the wheat  
trade owing to the absence of late  
of any important reaction from the  
extraordinary advance in prices  
caused the market today to be more  
than usually sensitive to anything  
resembling news favorable to the  
peace side. Vague talk late in the  
session that Russia had been nego-  
tiating with one or another of the  
belligerents, tended to promote free  
selling, which was not stopped by  
denials that the gossip had the  
slightest genuine basis. The fact  
that cables headed the buying  
near the close led to only a little  
rally.

Downward swings in the price of  
wheat began shortly after the open-  
ing but until mid-day were chiefly  
due to profit-taking by longs and  
were followed by prompt upturns.  
The exception came simultaneously  
with the peace rumors. A few  
stoploss orders were uncovered on  
the break.

Corn strength dwindled rapidly  
when the peace gossip attained head-  
way. Indeed throughout the day  
corn kept sagging after wheat and  
gave no sign of independent action.  
Immense export sales of oats at  
the seaboard, said to amount to 1-  
500,000 bushels and an urgent cash  
demand here lifted oats well above  
60c a bushel May delivery. The  
gains more than disappeared how-  
ever, after other cereals turned  
downgrade.

## Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future. Science says that an infant derives its sense and builds its character from cutaneous impressions. And a tranquil mother certainly will transmit a more beautiful influence than if she is extremely nervous from undue pain. This is what a host of women believe who used "Mother's Friend" during their period of expectancy.

These points are more thoroughly explained in a little book mailed free. "Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradfield Regulator Co., 511 Lamar Bldg., Atlanta, Ga.

The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

## ATTACKS TESTIMONY OF JOHN D. ROCKEFELLER, JR

JOHN R. LAWSON VIGOROUSLY ARRAIGNS CAPITALIST.

Tells of Shooting of Striking Miners in Colorado—Says Thousands of Rockefeller's Ex-employees in Colorado Wish They Were in Belgium to Be Fed.

New York, Jan. 29.—John R. Lawson, executive board member for Colorado, of the United Mine Workers of America, appeared today before the federal commission on industrial relations and attacked the testimony of John D. Rockefeller, Jr. and the methods and purposes of the Rockefeller foundation.

Mr. Lawson told of the shooting of striking miners in Colorado, the shattering of miners' homes, of how hundreds were dumped in 1903 into the desert without food or water, while others were driven over the snow of the mountain ranges. He uttered a vigorous arraignment of Mr. Rockefeller for his confessed lack of knowledge of conditions among the workers of the Colorado Fuel and Iron company.

The philanthropy of the Rockefellers, Mr. Lawson referred to as follows:

"Health for China, a refuge for birds, food for the Belgians, pensions for New York widows, university training for the elect—and never a thought or a dollar for thousands of men, women and children who starved in Colorado, for the widows robbed of husbands, children of their fathers. There are thousands of Mr. Rockefeller's employees in Colorado who wish to God they were in Belgium to be fed or a bird to be tenderly cared for."

"Your body can well afford to let the testimony of John D. Rockefeller, Jr. bring your investigation to an end," Mr. Lawson told the commission. "Out of his mouth came a reason for every discontent that agitates the laboring class in the United States today and if remedies are provided for the injustices that he disclosed a long step will be taken away from industrial disturbance."

"For more than ten years he has been a director of the Colorado Fuel & Iron company, vested with what is virtually the power of life and death over 12,000 men and their families. This power, let it be pointed out, came to him by no healthful process of struggle and achievement but entirely through the fact that he was the son of his father. His huge control of men and money was, in effect, a gift that marked the attainment of his maturity. In those first days when he might have been expected to possess a certain enthusiasm in his vast responsibilities, Colorado was shaken by the coal strike of 1903-4. It is a matter of undisputed record that a mercenary militia, paid openly by the mine operators, crushed this strike by the bold violation of every known constitutional right that the citizen was thought to possess. Men were herded in bull pens like cattle, homes were shattered, the writ of habeas corpus suspended; hundreds were loaded on cars and dumped into the desert without food or water and others were driven over the snow of the mountain ranges, a governor elected by 15,000 was unseated. A man never voted for a better man for the office."

**Company Led Attack on Rights**  
"The Colorado Fuel & Iron company, organized and led that attack on the liberties of the freemen and yet you heard from Mr. Rockefeller's own lips that he never inquired into the causes of the strike, the conduct of his executives or the fate of those who lost. So little interest did he take in the affair, so faint was the impression made upon him that he could not even answer your questions as to its larger facts."

"To take the place of the banished workers," Mr. Lawson continued, "thousands were imported and the extent of the company's dragnet for new material may be judged from the fact that over thirty languages and dialects have been spoken in the mines since 1904."

"Ten years passed and in 1913 Colorado is once more pushed to the verge of bankruptcy by another strike. Many strikers of 1903, reaching the limit of human endurance followed the example of those whose places they had taken, choosing hunger and cold in tents on the mountain side and plains in preference to a continuation of unbearable conditions in the mines. By actual count the union was supporting 21,508 men, women and children in the various colonies in January 1914."

"What course did Mr. Rockefeller pursue in connection with this upheaval of employees? His duty was clear, for he is on record with the admission: 'I think it is the duty of every director to ascertain the conditions as far as he can and if there are abuses, to right them.' Putting the injustice to one side, the fact remains that we claimed many abuses and cited them specifically."

"The statute law of Colorado ordered a semi-monthly payday, check weighmen so that we might not be cheated, the right to form unions, the eight hour day and payment in cash, not script. We charged that the Colorado Fuel & Iron company had violated these and other laws and in addition we told of evil housing conditions, high rents, company store extortions, saloon environment, armed guards and the denial of freedom in speech, education, religion and politics. When 12,000 men back up such claims by taking

their wives and children into wind swept tents, surely they would seem to be deserving of consideration. Says Rockefeller: Confessed Ignorance.

"Yet, upon the stand, throughout three whole days this week, John D. Rockefeller, Jr. insisted that he was absolutely ignorant of every detail of the strike. He stated that he had not received reports on labor conditions, he could not tell within several thousands how many men worked for him in Colorado, he did not know what wages they received or what rent they paid, he had never considered what the proper length of a working day should be, he did not know what constituted a living wage and, most amazing of all, he had never even read the list of grievances that the strikers filed with the governor of Colorado and gave to the world through the press."

"He did not know whether or not fifty per cent of his employees worked twelve hours a day and when asked whether or not he considered twelve hours a day to be a hardship, he answered that he was not familiar enough with the work to judge. He did not know how many of his employees worked seven days a week the year round but judged that it would be a hardship."

"He knew that there was a system by which injured men or their families were compensated, yet he didn't know what the system was and when a list was read showing the beggary a month paid to crippled mangled miners, he would say nothing but that they were not matters that a board of directors would pass on. He did not know that his company's control of the courts had resulted in a condition where not one damage suit has been filed against it in years and he did not know that men were treated like criminals for daring to mention unionism."

"He could not even define collective bargaining nor had he ever made the slightest study of the great union or its principles against which the Colorado Fuel & Iron company threw its power and its millions. He expressed himself in favor of unions and then proceeded to negative this belief by refusing to answer affirmatively a number of questions that bore upon the manner in which unionization could be achieved."

"Asked whether he would vote to discharge an executive officer if it should be proved that he had spent money to corrupt the electorate, he answered, 'I should want to know the conditions.' He did not know what the capitalization was of the sub-company that operates the mine stores or what it paid on the investment."

**Company Erected Saloon Buildings.**  
"He did not know that the company built special buildings for saloons, charging high rental or that church meetings were compelled to be held near saloons and that in some cases saloons were in close contact with the schools. Nor was he aware that his officials dictated the appointment of our preacher and school teachers and exercised the right of discharge if they offended by criticism."

"As an excuse for this amazing lack of knowledge, he insisted that the board of directors had placed control of such matters in the hands of J. P. Welborn and L. M. Bowers and held them responsible for wise and just administration of labor affairs. He admitted that aside from these two he had knowledge of no other who would be responsible for labor conditions."

"What has been Mr. Rockefeller's attitude to this development? Has he in spite of his own lack of knowledge instituted any investigation to discover whether Bowers and Welborn, his trusted executives are equally ignorant."

"Fourteen months, thousands of men women and children suffered on the mountainsides and prairies and two more months have gone since we called off the strike as a result of President Wilson's proposal and yet he has not had the opportunity for a personal investigation. His excuse for his lack of knowledge and his failures is that he is too busy. What is his business? He explained it by stating: 'I spend a large part of my time in directing with others the various foundations which my father has established and in giving time to questions of investment.'"

Mr. Lawson compared Mr. Rockefeller's testimony with that given by Henry Ford who testified that he kept in close touch with labor conditions among his employees.

Mr. Lawson reviewed that part of Mr. Rockefeller's testimony in which it was stated that John D. Rockefeller, Jr., had received only \$71,000 in dividends in all on his stock.

"It was only under questioning that he confessed that his father had received \$8,889,000 from his bonds," Mr. Lawson continued, "and that the assets of the company were \$23,000,000 in excess of liabilities and that this item did not take in an appreciation in property values of some \$19,000,000. Nor did he mention the vast holdings that the company refuses to develop, keeping them idle while the population increase adds to their value."

**Might Have Had Rich Returns.**  
"Whatever appearance or poverty clings to the company is not due to anything but its own stupid and corrupt policy. Had it taken the money it has spent in controlling officials and the electorate, in purchasing machine guns, the employment of gunmen and in crushing the aspirations of human beings and spent it in wages and the improvement of working conditions, they would have had rich returns in increased productivity."

"These—this record of indifference respecting human life and human happiness—are vital causes of industrial discontent. An employer who is never seen and whose power

is handed down from man to man, until there is a chain that no individual can climb, our lives and our liberties passed over as a birthday gift or by will, our energies and future have no prospects."

Mr. Lawson related some of Mr. Rockefeller's testimony concerning the activities of the Rockefeller foundation.

"A wave of horror swept over me during that reading and I say the same wave is now rushing over the entire working class in the United States. Health for China, a refuge for birds, food for the Belgians, pensions for New York widows, university training for the elect—and never a thought or a dollar for the many thousands of men, women and children who starved in Colorado, for the widows robbed of husbands, children of their fathers by law violating conditions in the mines or for the glaring illiteracy of the coal camps. There are thousands of Mr. Rockefeller's ex-employees in Colorado today who wish to God they were in Belgium to be fed, or a bird to be tenderly cared for."

## PARK BOARD AFFAIRS.

In the report of the park board meeting Thursday evening two items were unintentionally omitted. A hearty vote of thanks was tendered Peter Bonansinga for generous gifts of fruit for the monkeys. Also as soon as practicable the members of the board intend to arrange for a meeting with representative citizens living in the vicinity of Duncan park to confer with them regarding plans for the beautifying and care of that place.

Miss Adel Hexter is visiting with friends in Ashland for a few days.

### PLEASING PROGRAM IS RENDERED AT KNIGHTS' TEMPLAR RECEPTION

Members of Hospitaller Commandery No. 31, K. T., Entertained Friday Evening at Masonic Temple for Wives and Friends.

The members of Hospitaller Commandery No. 31, Knights Templar, entertained at a pleasant reception Friday evening at the Masonic Temple, West State street, and the wives of the knights and a number of friends were there to partake of the hospitality offered and to enjoy the excellent program which had been prepared. William A. Crawley, the eminent commander, had general charge of the event, with the able assistance of Alexander Rabjohn and Harvey D. Atkins. William Spillman was chairman of the refreshment committee and P. A. Lloyd had in hand the decorations.

Prayer by the Rev. F. A. McCarty was followed by an address by Rev. M. L. Pontius, in which were many helpful admonitions and uplifting sentiments. Miss Marie Megginson with a solo, "Just for Today," and Master John Hackett with a march selection on the violin were welcome additions to the musical portion of the program. Miss Sue Fox favored the company with two excellent readings and Miss Fern Haik gave in good voice a soprano solo, "The Summer Wind." An address by J. G. Strawn was a most profitable feature of the program and a talk by Dr. G. W. Miller was enjoyed by all for he always has something worth while to say. A violin duet by Miss Geneva Arthur and Miss Anna Frances Bradley was thoroughly enjoyed and a soprano solo by Nelle E. Self won the approbation of everyone. The duet accompaniment was played by Miss Annie Crawley.

An elegant luncheon was served in the dining hall after the program and in every way were the demands of the occasion anticipated and the guests shown a consideration in keeping with the hospitality of the knights.

### THE NEWEST CANDIDATE.

Abe L. Wood is the latest candidate for city commissioner and comes before the people with the endorsement of the Trades and Labor assembly. Mr. Wood has been secretary of the assembly for a number of years and has been deservedly popular with all the labor organizations. When it was originally proposed that a vote should be taken among all labor organizations for candidates there were three names on the ballots but Mr. Davis and Mr. Smith both withdrew in favor of Mr. Wood. The indications are that he will prove popular with the labor voters and with a large number of others as well. Mr. Wood has been a Courier employee for about thirty years and stands well in the community.

### FIGHT FOR LAW ENFORCEMENT TOLD BY STATE'S ATTORNEY OF DECATUR

Macon County Official Describes Battle for a Dry City—Gathering of Citizens at Baptist Church Calls for Public Mass Meeting to Discuss Coming Election.

The stand of officials on the wet and dry issues is an indicator often of their general attitude toward law enforcement said Jesse L. Deck of Decatur, state's attorney of Macon county, who addressed a meeting of men Friday night under the auspices of the Brotherhood of the First Baptist church. "Wet" means leniency here and favoritism there, shading a little from the law's true meaning and making exception of individual offenders when there should be nothing but stringent law enforcement. Mr. Deck told of the difficulties encountered in the struggle for a dry Decatur and mentioned the obstacles in the way of public officers, however much they may desire to carry out the law's provisions. His remarks were enthusiastically received by the seventy-five or more men present and at the close of the address it was proposed that a mass meeting be held in Jacksonville for consideration of political issues in preparation for the coming election.

This meeting will be held in the auditorium of the First Baptist church Sunday afternoon, Feb. 7, and will be addressed by a speaker of prominence. It will be in charge of a committee of three chosen from without the church membership by the program committee of the First Baptist Brotherhood. The band may be secured for the occasion and both men and women will be invited to attend. Plans for this gathering had origin in a discussion which followed Mr. Deck's address. The attorney had mentioned the importance of the selection of good officials in the local elections and the decision to hold the meeting here accords with the practice in Decatur where such gatherings have been held to consider questions of political expediency.

Mr. Deck was immediately followed by State's Attorney Robert Tilton, who following the trend of thought laid down, took up the enforcement of liquor laws in Jacksonville and gave several incidents from his own experience.

When Decatur Went Dry.

"When Decatur went dry," said Mr. Deck, "there were voted out sixty saloons and at once began the battle with the liquor interests. The first recourse of the dealers was the incorporated club, in the charters of which were mentioned various high-sounding objects. We soon conceived the idea that these men were not carrying on the same lines of business mentioned in the articles of incorporation and writs of quo warranto were issued by which soon every club was put out of existence."

Next there appeared the phony tobacco shop. Some forty establishments sprang up, each supporting four or five men, dispensing cigars and tobacco to the general public and retelling drinks to those fortunate enough to secure admittance to "the inner of inners." By employing secret service men and Decatur citizens in the capacity of detectives we soon had ample evidence. I filed information on a number of the men mentioning in some cases as high as a hundred counts. A few were stubborn at first but it was soon evident that the phony shops must go and before we were through keepers were pleading guilty of their own accord."

Mr. Deck told of the troubles Decatur experienced with a corn carnival, mentioning the gambling issue and describing the simultaneous raid by which the police headed off the liquor violations. He told of the subterfuges employed by convicted men to get out of jail or to shorten their sentences. As a last resort many of them appeal to the board of pardons and Mr. Deck advised his auditors to write to the governor urging him that mercy be not shown and calling attention to the fact that clemency exerted here would serve to tie the hands of city officials in all parts of the state.

"Lid clubs" were the last resort of the liquor men. Beer or whiskey bought by individuals was served to them by a keeper who charged but a nominal "service fee." This plan was however declared illegal and now "there is not a single public institution in the city of Decatur which handles liquor."

### A Delicious Supper.

The address of Mr. Deck was preceded by an excellent supper served by the ladies of the Amoma class of the Baptist church, of which Mrs. A. B. Williamson is teacher. Miss Laura Hayden was chairman of the dining room committee and Mrs. Alexander Rabjohn was in charge of the kitchen. The waitresses and helpers were all members of the class.

Music by the Glen Echo quartet began and closed the program and the members, Maurice Peckham, George Day, Ben Denny and Grover Schuetz, acquitted themselves well. Charles H. Story, president of the brotherhood explained the absence of J. J. Badenoch, who at first scheduled to speak, and the Rev. Percy W. Stephens, pastor of the church introduced Mr. Deck.

## ACTION TAKEN RELATIVE TO DEATH OF CLIFFORD STRAWN

Jacksonville High School Literary and Athletic Association and Football Team Pass Resolutions.

The Jacksonville High School Literary and Athletic association held a meeting yesterday with President Richard Reynolds presiding. After a short discussion of the basketball games action was taken relative to the death of Clifford Strawn, a student at the high school. The superintendent proposed the following resolution, which was seconded by the principal:

Whereas, We, the members of the Jacksonville High School Literary and Athletic association and the students of the Jacksonville high school, have just received the sad news of the death of Clifford Strawn, one of our fellow students, and

Whereas, This loss is keenly felt by all of us, and

Whereas, We all realize that his passing away must be a terrible shock to his family and friends:

Now, therefore, be it resolved: That, we, the members of said association and student body all desire and do join in expressing our sympathy to his family in their bereavement and request the athletic committee to convey this expression. And, further, we request and authorize said athletic committee, to purchase and send a floral remembrance; and, to offer the services of this association and student body and to take all other steps that they in their judgment deem proper.

Clay Killbrow, captain of the football team, later called a meeting of the team in the library room at which time Coach Buland presented the following resolution:

Whereas, We, the members of the football team of the Jacksonville High School Literary and Athletic association have received the sad news of the untimely death of one of our number, Clifford Strawn; and,

Whereas, Clifford, through his earnest and efficient work in our football games, as well as many other ways, has woven himself very closely into our lives;

Now, therefore, we desire and do state to his family that we deeply feel our loss and join with them in their bereavement.

And, we further authorize the captain of our team to appoint a committee of five—including the coach and captain—to convey this information;

And, as a further token of our friendship, to purchase and send such flowers as they deem proper and to notify the bereaved family that we all stand ready and willing, in this sad hour, to render any assistance desired.

The five appointed were Clay Killbrow, Coach Buland, Warren Maddox, James Haigh and Richard Reynolds.

The athletic committee took suitable action on the matter.

**FORMER RESIDENT WRITES ABOUT EUREKA SPRINGS**

Mrs. Annie J. Still, formerly a resident of this county, is living at Eureka Springs, Ark., and has written to the Journal a very enthusiastic letter about that city. Mrs. Still says that an Illinois society has been organized there and that enthusiastic meetings are held every two weeks. Mrs. Still tells of various improvements which are projected in Eureka Springs, including a bridge across the White river, and a great garage to take care of the cars of the numerous auto visitors who go there from all parts of the country. Mrs. Still has found Eureka Springs very beneficial in a health way and quotes a number of instances of people who have been cured.

## SINCLAIR RUSSEL FARM IS SOLO TO JOHN FLYNN

One of the Most Important Farm Sales of Recent Years is Consummated Friday.

One of the best farm sales of recent years was consummated Friday when Mr. John Flynn, residing near Murrayville, became the owner of the Sinclair Russel farm near Murrayville.

Mr. Flynn is one of the foremost farmers of Morgan county and among the best authorities on Poland China hogs. On account of the financial market, very few farms are changing hands this year, but this farm and the price it was sold shows that Morgan county land is a good proposition to own, no matter what the conditions of the cash market are.

It is understood that the price paid was a little under \$200 an acre. About a year ago Mr. Russel moved to North Dakota where he purchased a large ranch, and has sold this farm to complete arrangements up there.

Both Mr. Russel and Mr. Flynn have many friends in the county where they are well and favorably known. Mr. Flynn has not yet decided what he will do with the farm, but will probably operate it in connection with his already extensive farming interests.

## NITROGEN LAMPS TO BE TRIED IN CITY SERVICE

Give Brilliant Light and Consume Less Current Than Other Kinds.

The city light department is in receipt of a number of the new nitrogen electric lamps which will be tried out in the local service. When the new city lighting system was established just about a year ago nitrogen lamps were on the market but had not been tried extensively and in addition the price was accounted prohibitive. Since that time such advances have been made that the cost of manufacture has been materially reduced and the retail price has known a like reduction. There are about 650 Mazda lamps now in use and Commissioner Brennan's record shows that during the eleven and a half months of service there have been not more than twenty lamps burned out.

This record indicates that the lamps have had longer life than the rule, for experts have stated that the average Mazda street lamp will not last more than six months. A small supply of the new lamps has been received and as displacements occur, which may not be more frequent because most of the lamps in service have been used nearly a year, use will be made of the new type. Five of them have been installed in the fire department for experimental purposes. They are of the 200-watt size and give a light estimated at 400-candle power. The nitrogen lamp, it is claimed, gives a much more intense light than the Mazda, and at the same time burns or consumes a very much less amount of current.

## SOME FARMERS STILL HOLDING THEIR WHEAT

Offer of \$1.40 Per Bushel Not Enough to Attract Them—Look for Higher Prices.

Contrary to the general impression, grain men say that there is still a considerable amount of wheat held by farmers in Morgan county. It is true that by far the major portion of the crop was marketed at threshing time when the prices ranged from sixty-eight to eighty cents, but an investigation made recently indicates that quite a number of farmers are still holding the grain. One local firm recently sold a car of wheat at \$1.47 which represented purchases made only a short time before. Elevators are paying now \$1.40 a bushel, but even this offer which has been made to a number of Morgan county farmers has failed to arouse their enthusiasm.

The men who have this grain are in a position so that they are not forced to sell in order to meet financial obligations, and they evidently have the feeling that the high point has not yet been reached, notwithstanding the fact that the record for the past fifteen years has already been broken. With corn and situation is a little different, and even farmers who have manifested a disposition to hold wheat have been willing to dispose of their corn. Elevators have offered as high as seventy cents, but the market yesterday did not justify this price.

Quite a number of farmers sold at sixty, others at sixty-five, and a number of deliveries have been made at sixty-eight cents. The reason for the willingness to sell is possibly the fact that much of the local corn is not of strictly No. 2 grade because a good deal of bad grain is intermingled with the good. Elevators are paying fifty cents for oats, and while this is high and the price of corn is high, farmers and dealers agree that the difference between these figures and the price for wheat is a little difficult to explain.
